Good idea. Kent, let us know if you have time for a Teams call in the next few days so Focus can walk you through the information.

CAUTION: EXTERNAL EMAIL

I think it would be easiest if we had an introductory call with Kent to explain the file layouts, etc. much like we did for Rabo. There are some folders that are empty and the explanation of how to use the inventory master files and the electronic records would be most helpful for a new user.

We would be able to send a hard drive with all the records. Don't think the thumb drive would be big enough given the magnitude of the files.

Copying Juanita from Focus and she can give you an idea of the actual physical number of boxes/documents that Focus has in its possession.

As noted, we have scans of all of the records in Focus's possession. I believe we can put all of the records on a thumb drive and send them to you.

CAUTION: EXTERNAL EMAIL

I cant seem to get these docs, or the docs from Focus sent by Michael Doland. After a long time downloading, many or most of the folders are empty.

All these docs are property of the estate. Please give me an idea of how many boxes of docs there are. In the meantime, I need Focus or someone to put them on a thumbdrive and mail them to me so I know I have everything they scanned. Same for Rabo, and anyone else that has records of the Debtors.

Thanks.

Sounds good. We have downloaded the documents here as well so it might be easier for Annette to just share them with Jessica and Clint from RQN's data bases. There are a lot of records.

Hi Jessica. My assistant Annette can send you a share file link.

As far as the documents we have, those have all been scanned in. Those are technically under the Chapter 7 Trustee's control. If Kent will authorize us to provide you and Clint a link then I will have Focus send that link to you.

Mr. Johnson,

If you have a secure cloud location you'd like me to "drop" the scans I will do that for you too. Just let me know whats best and fastest.

Thanks
Jessica

Yes I have the scanned documents from the "house tote", my cloudvault is experiencing some server error USDA wide to securely upload today. However I'm willing to get the scans to you ASAP.

Can we hop on a call?

Other than the computer and phone, I think Jessica has those scans and are ready for you, and I believe has offered to Glen a few times.

I think we have another very timely issue to discuss as well.

Would now work?

Clint:

I understand from Glenn that the records that you and the USDA took and made copies of were returned to Attorney Robert Prince, and that Mr. Prince is now refusing to return the records. While I believe the Trustee will make demand on Mr. Prince for the original records it could take some time to get them. Can you get us (Glenn, me and the Trustee) copies of whatever you guys made so we will at least have those?
